Summary of Differences between SBOE Proposed Rule/Indiana Code Requirements \& ESSA Plan

| Component | Federal Accountability | State Accountability |
| :---: | :---: | :---: |
| Academic Achievement Indicator | ESSA Plan: <br> participation rate based on students enrolled $\geq 162$ days | SBOE Proposed Rule: <br> Participation rate based on students enrolled during test windows |
| Academic Progress Indicator | ESSA Plan: <br> Growth for High School included | SBOE Proposed Rule: <br> No growth for High School included |
| Academic Progress Indicator | ESSA Plan: <br> Caps growth points earned at 100.0 points at the overall indicator | SBOE Proposed Rule: <br> Caps growth points earned at 100.0 points at each subject area score |
| English Language Proficiency Indicator | ESSA Plan: <br> Includes a goal factor/multiplier for the indicator (70\%) | SBOE Proposed Rule: <br> Does not include a goal factor/multiplier for the indicator |
| CCR Indicator | ESSA Plan: <br> Includes AP, IB, DC, and IC as CCR indicators | SBOE Proposed Rule: Includes AP, IB, DC, and IC, \& all graduation pathways as CCR indicators |
| CCR Indicator | ESSA Plan: <br> Indicator based on entire cohort | SBOE Proposed Rule: <br> Indicator based on graduates only |
| Well Rounded Indicator | ESSA Plan: <br> Does not include the well-rounded indicator | SBOE Proposed Rule: <br> Includes the well-rounded indicator |
| $9^{\text {th }}$ Grade On-Track Indicator | ESSA Plan: <br> Does not include the $9^{\text {th }}$ grade on-track indicator | SBOE Proposed Rule: Includes the $9^{\text {th }}$ grade on-track indicator |
| Accountability for New Schools | ESSA Plan: <br> New schools receive accountability determination based on growth indicator only for the first 3 years of operation | SBOE Proposed Rule: <br> New schools receive a "NULL" for the first 3 years of operation (note: unclear if this would apply for innovation schools as well) |
| Accountability for Small Schools | ESSA Plan: <br> Accountability determination will be generated based on an average of the past 3 years of data for all available indicators | Indiana Code/SBOE Proposed Rule: <br> IC 20-31-8-3(b) requires the SBOE to establish a definition of "low population schools" and provides that these schools may receive a "NULL" |
| Exclusion of Students from Accountability Determinations | ESSA Plan: <br> All students enrolled at a school for at least $90 \%$ of the school year are included in accountability determinations | Indiana Code: <br> IC 20-31-8-4.6 provides for the exclusion of students from accountability determinations if they receive dropout recovery education services from an "eligible entity" |
| Alternate Accountability for Schools Serving Special Populations | ESSA Plan: <br> No alternate accountability system for schools serving special populations incorporated | Indiana Code: <br> IC 20-31-8-4.5 requires the SBOE to establish an alternate accountability system for schools exclusively serving students with developmental, intellectual, and behavioral challenges |
| Alternate Accountability for Adult High Schools | ESSA Plan: <br> Requires inclusion of all students enrolled $\geq 162$ days at the school | Indiana Code/SBOE Rule: <br> IC 20-31-8-5.2(c) requires that all students, regardless of age must be included under the adult high school rules, which exclude traditional 9-12 indicators |
| Indicator Weights | ESSA Plan: <br> EL proficiency weighted at 10\% <br> Doesn't account for well-rounded or on-track indicator | SBOE Proposed Rule: <br> EL proficiency weighted at 5\% Incorporates well-rounded \& on-track indicators |

## Summary Comparison of State (Indiana Code) \& Federal (ESSA) Requirements for Accountability Systems

|  | STATE REQUIREMENTS | FEDERAL REQUIREMENTS |
| :---: | :---: | :---: |
| Basis of Accountability System | Student performance on the statewide assessment program | Challenging academic standards for reading/language arts and math to improve student achievement \& school success |
| Summative Rating | SBOE must use an A-F grading scale to designate performance | No explicit parameters |
| Schedule/timeline | SBOE shall place each school once annually | SEA must assign summative rating on an annually basis |
| Measures of Performance/Indicators | - Student performance on the statewide assessment \& other assessments recommended by DOE are the primary \& majority means of assessing school improvement <br> - Must be based on a measurement of individual student academic performance \& growth to proficiency | - Academic achievement, measured by proficiency on statewide assessment <br> - Student growth for elementary \& middle schools <br> - Four-year graduation rate <br> - English language proficiency progress indicator <br> - At least 1 indicator of school quality/student success <br> - May include growth \& extended graduation rate for high schools |
| Weights of Indicators | No explicit parameters | - Must afford substantial weight to each academic indicator (achievement, growth, graduation rate, English language proficiency progress) <br> - In aggregate, must afford much greater weight to academic indicators than is afforded to the school quality/student success indicator/s |
| Student Inclusion/Exclusion | - Must exclude at-risk students enrolled at public school that receives dropout recovery educational services from an eligible school | - Must include all students enrolled in public schools <br> - For academic achievement: must measure at least $95 \%$ of all students <br> - May not include student enrolled for less than $1 / 2$ school year |
| Data practices/N-Size | No explicit parameters | Must establish a statistically sound minimum number of students the SEA determines necessary to be included to carry out the accountability requirements |
| Applicability | All public schools \& accredited nonpublic schools | All public schools |
| Alternative Accountability | - SBOE must define "low population school" and determine criteria for placing these schools in categories. SBOE may place schools in "null" or "no letter grade" category <br> - SBOE must develop alternative accountability benchmarks for schools exclusively serving students with developmental, intellectual, or behavioral challenges <br> - SBOE must establish an alternative accountability system to assess the performance of an adult high school | Must have a way of assigning a summative rating to all public schools, but may have differentiated improvement activities for schools that predominantly serve adult populations, and for schools with less than 100 students may permit the LEA to forego implementation of improvement activities |
| Reporting Requirements | No explicit parameters | Must prepare and disseminate widely to the public an annual State report card that meets minimum requirements of ESSA, including accountability ratings and indicator results |
| Goals | No explicit parameters | Must establish statewide long-term goals and interim progress measures for academic achievement, graduation rate, and English language proficiency progress |

ACADEMIC ACHIEVEMENT INDICATOR
Response to Public Comment \#: 14, 21, 69, 79, 82, 91, 94, 99, 100, 118, 122, 123, 180
1.1: Historical ISTEP Proficiency Rates for Grades 3-8 (Table Version)

|  | E/La Only | Math Only | Both Subjects |
| :--- | :---: | :---: | :---: |
| $\mathbf{2 0 1 3 / 2 0 1 4 *}$ | $80.7 \%$ | $83.5 \%$ | $74.0 \%$ |
| $\mathbf{2 0 1 4 / 2 0 1 5}$ | $67.3 \%$ | $61.0 \%$ | $53.5 \%$ |
| $\mathbf{2 0 1 5 / 2 0 1 6}$ | $66.1 \%$ | $58.9 \%$ | $51.6 \%$ |
| $\mathbf{2 0 1 6 / 2 0 1 7}$ | $65.2 \%$ | $58.5 \%$ | $51.4 \%$ |

*2013/2014 was the last year the old academic standards were tested on the ISTEP
1.2: Historical ISTEP Proficiency Rates for Grades 3-8 (Chart Version)

## ACADEMIC ACHIEVEMENT INDICATOR

Response to Public Comment \#: 14, 21, 69, 79, 82, 91, 94, 99, 100, 118, 122, 123, 180

## 1.3 \& 1.4: Goal Factors for Grade 3-8 Academic Achievement Indicator Analysis (Table \& Chart Versions)

| Indicator Score Distribution |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Grade | Current |  | Goal Factor |  |
| A | 65 | $3.7 \%$ | 586 | $33.0 \%$ |
| B | 245 | $13.8 \%$ | 374 | $21.1 \%$ |
| C | 438 | $24.7 \%$ | 340 | $19.2 \%$ |
| D | 433 | $24.4 \%$ | 206 | $11.6 \%$ |
| F | 593 | $33.4 \%$ | 268 | $15.1 \%$ |

## Considerations:

- Scores on Academic Indicator Using 16/17 calculated in 2 ways:
- Straight proficiency rate based on 100 point scale
- Application of goal factor that aligns with ESSA long-term goal to cut non-proficiency rate in half within 6 years (English/Language Arts: 83.2 points; Math: 79.9 points)
- Note: goal factor used is an example, not recommendation

## ACADEMIC PROGRESS INDICATOR

Response to Public Comment \#: 6, 12, 13, 14, 19, 23, 24, 26, 29, 37, 40, 63, 105, 107, 113, 118, 123, 124, 135, 136, 140, 157, 158, 159, 166, 169, 171, 178, 185

## 2.1: 2016/2017 Growth Cap Analysis for Grades 4-8 (Table Version)

| Number of Points Earned | No Cap |  | Subject Area Cap |  | Overall Indicator Cap |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $>100$ | 742 | $41.6 \%$ | 0 | $0.0 \%$ | 0 | $0.0 \%$ |
| $90.0-100.0$ | 514 | $28.8 \%$ | 1239 | $69.5 \%$ | 1256 | $70.5 \%$ |
| $80.0-89.9$ | 316 | $17.7 \%$ | 331 | $18.6 \%$ | 316 | $17.7 \%$ |
| $70.0-79.9$ | 119 | $6.7 \%$ | 121 | $6.8 \%$ | 119 | $6.7 \%$ |
| $60.0-69.9$ | 29 | $1.6 \%$ | 29 | $1.6 \%$ | 29 | $1.6 \%$ |
| $00.0-59.9$ | 13 | $0.7 \%$ | 13 | $0.7 \%$ | 13 | $0.7 \%$ |
| N/A | 49 | $2.7 \%$ | 49 | $2.7 \%$ | 49 | $2.7 \%$ |

## Considerations:

- Proposed rule \& ESSA Plan adjust n-size from 40 students to 20 students, with no aggregation practice
- Proposed rule does not specify how academic progress indicator weight is redistributed if indicator is unable to be calculated
2.2: 2016/2017 Growth Cap Analysis for Grades 4-8 (Chart Version)

WELL-ROUNDED EDUCATIONAL DEVELOPMENT INDICATOR
Response to Public Comment \#: 6, 60, 63, 97, 122, 131, 134, 135, 136, 140, 149, 154, 180
3.1: Historical Proficiency Rates for Science \& Social Studies

|  | $\mathbf{2 0 1 4 / 2 0 1 5}$ | $\mathbf{2 0 1 5 / 2 0 1 6}$ | $\mathbf{2 0 1 6 / 2 0 1 7}$ |
| ---: | :---: | :---: | :---: |
| Social Studies | $70.4 \%$ | $65.5 \%$ | $63.5 \%$ |
| Science | $69.2 \%$ | $64.9 \%$ | $63.2 \%$ |

3.2: Historical Participation Rates for Science \& Social Studies

|  | 2016 Science | 2017 Science | 2016 Social Studies | 2017 Social Studies |
| :---: | :---: | :---: | :---: | :---: |
| $\geq \mathbf{9 5 \%}$ | $90.6 \%$ | $91.6 \%$ | $91.2 \%$ | $89.9 \%$ |
| $\mathbf{9 0 . 0 \% - 9 4 . 9 \%}$ | $6.5 \%$ | $5.9 \%$ | $6.1 \%$ | $7.1 \%$ |
| $\mathbf{8 0 . 0 \% - 8 9 . 9 \%}$ | $1.5 \%$ | $1.2 \%$ | $1.6 \%$ | $1.6 \%$ |
| $<\mathbf{8 0 . 0 \%}$ | $1.4 \%$ | $1.3 \%$ | $1.1 \%$ | $1.4 \%$ |

Response to Public Comment \#: 6, 60, 63, 97, 122, 131, 134, 135, 136, 140, 149, 154, 180

## 3.3 \& 3.4: Well-Rounded Indicator Scores with 2016/2017 Data (Table \& Chart Versions)

| Letter Grade | \# Schools | \% Schools |
| :---: | :---: | :---: |
| A | 44 | $2.4 \%$ |
| B | 150 | $8.1 \%$ |
| C | 253 | $13.7 \%$ |
| D | 230 | $12.5 \%$ |
| F | 390 | $21.1 \%$ |
| N/A | 778 | $42.2 \%$ |

3.5: *Explanation of N/A Indicator Scores

| School did not have $5^{\text {th }}$ grade and $4^{\text {th }}$ or $6^{\text {th }}$ grade | 241 |
| ---: | ---: |
| School did not have $5^{\text {th }}$ grade | 353 |
| School did not have $4^{\text {th }}$ or $6^{\text {th }}$ grade | 4 |
| School did not meet $n$-size for both subjects | 180 |
| TOTAL | $\mathbf{7 7 8}$ |

## Considerations:

- Participation rates may be lower in science \& social studies because there has been no accountability tied to these assessments
- Proposed rule requires both science score \& social studies score to calculate the indicator; therefore, a school must have enough students in $4^{\text {th }}$ or $6^{\text {th }}$ grade and $5^{\text {th }}$ grade to receive an indicator score
- Proposed rule does not specify where the designated weight for the well-rounded indicator is redistributed if a school is unable to calculate a wellrounded indicator score
- For schools with grades 4-6: social studies will be weighted twice as must as science:
- Grades $4 \& 6$ each have 100 students (200 results)
- Grade 5 has 100 students (100 results)
- Indicator calculation then averages the 200 science results \& 100 social studies results

## OVERALL A-F DISTRIBUTION

4.1: Overall 2016/2017 A-F Scores Comparison, Grades 3-8 (Table Version)

| Letter Grade | $\mathbf{1 6 / 1 7}$ Actual |  | $\mathbf{1 6 / 1 7}$ with Proposed Rule |  | $\mathbf{1 6 / 1 7}$ with ESSA Plan |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A | 437 | $25.3 \%$ | 187 | $10.1 \%$ | 263 | $14.2 \%$ |
| B | 525 | $30.4 \%$ | 625 | $33.8 \%$ | 728 | $39.4 \%$ |
| C | 434 | $25.1 \%$ | 592 | $32.0 \%$ | 521 | $28.2 \%$ |
| D | 212 | $12.3 \%$ | 267 | $14.4 \%$ | 219 | $11.8 \%$ |
| F | 121 | $7.0 \%$ | 178 | $9.6 \%$ | 118 | $6.4 \%$ |

## Considerations:

- Data do not include ELP indicator
- If school had both 3-8 \& 9-12, only 3-8 grades were included in data (e.g., 5-12 school included in table based on score for grades 5-8)
- Proposed rule does not consider what happens if a school is unable to calculate academic progress indicator
- Proposed rule does not consider what happens if a school is unable to calculate well-rounded indicator
4.2: Overall 2016/2017 A-F Scores Comparison, Grades 3-8 (Chart Version)

## Proposed Accountability Rule: 9-12

## ACADEMIC ACHIEVEMENT INDICATOR

Response to Public Comment \#: 14, 21, 79, 69, 82, $91,94,99,100,102,118,120,122,123,124,148,180$

## 5.1: 2017 Cohort SAT Participation Information

| Total Number of Test Takers | 41,817 |
| ---: | :---: |
| Percentage of 2017 Cohort Taking SAT | $51.1 \%$ |

## Considerations:

- Performance data on SAT considers only half of the 2017 cohort students
- No ACT data included because summary data were not able to be compiled in time
5.2: 2017 Cohort SAT CCR Benchmark Performance

| Math SAT |  |
| ---: | :--- |
| Met Benchmark | $50.8 \%$ |
| Did Not Meet Benchmark | $49.2 \%$ |
| School Average $\geq 530$ | $54.7 \%$ |
| School Average < 530 | $45.3 \%$ |

| English/Reading/Writing SAT |  |
| ---: | :---: |
| Met Benchmark | $76.1 \%$ |
| Did Not Meet Benchmark | $23.9 \%$ |
| School Average $\geq 480$ | $95.5 \%$ |
| School Average $<480$ | $4.5 \%$ |

| Composite SAT |  |
| ---: | ---: |
| Met Both Benchmarks | $48.7 \%$ |
| Did Not Meet Either Benchmark | $21.7 \%$ |

5.3: Historical ISTEP+10 Proficiency Rates

|  | $\mathbf{2 0 1 5 / 2 0 1 6}$ | $\mathbf{2 0 1 6 / 2 0 1 7}$ |
| ---: | :---: | :---: |
| English/Language Arts | $59.0 \%$ | $60.5 \%$ |
| Math | $34.6 \%$ | $36.8 \%$ |

## Proposed Accountability Rule: 9-12

## ACADEMIC ACHIEVEMENT INDICATOR

Response to Public Comment \#: 14, 21, 79, 69, 82, 91, 94, 99, 100, 102, 118, 120, 122, 123, 124, 148, 180

## 5.4 \& 5.5: Goal Factors for Grade 10 Academic Achievement Indicator Analysis (Table \& Chart Versions)

| Indicator Score Distribution |  |  |  |  |
| :---: | ---: | ---: | ---: | ---: |
| Grade | Current |  | Goal Factor |  |
| A | 1 | $0.2 \%$ | 43 | $10.1 \%$ |
| B | 5 | $1.2 \%$ | 49 | $11.6 \%$ |
| C | 26 | $6.1 \%$ | 74 | $17.5 \%$ |
| D | 58 | $13.7 \%$ | 88 | $20.8 \%$ |
| F | 334 | $78.8 \%$ | 170 | $40.0 \%$ |

## Considerations:

- Scores on Academic Indicator Using 16/17 calculated in 2 ways:
- Straight proficiency rate based on 100 point scale
- Application of goal factor that aligns with ESSA long-term goal to cut non-proficiency rate in half within 6 years (English/Language Arts: 76.6 points; Math: 67.3 points)
- Note: goal factor used is an example, not recommendation

## Proposed Accountability Rule: 9-12

## GRADUATION RATE INDICATOR

Response to Public Comment \#: 11, 14, 69, 82, 91, 93, 99, 100, 117, 118, 123, 124

## 5.1: Goal Factors for Graduation Rate Indicator Analysis (Table Version)

| Graduation Rate Analysis with 2016 Cohort |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Grade | Current Practice |  | Goal Factor |  |
| A | 290 | $65.3 \%$ | 388 | $87.4 \%$ |
| B | 91 | $20.5 \%$ | 14 | $3.2 \%$ |
| C | 21 | $4.7 \%$ | 4 | $0.9 \%$ |
| D | 4 | $0.9 \%$ | 1 | $0.2 \%$ |
| F | 38 | $8.6 \%$ | 37 | $8.3 \%$ |

5.2: Goal Factors for Graduation Rate Indicator Analysis (Chart Version)

## Considerations:

- Scores on Graduation Rate Indicator Using 2016 cohort calculated in 2 ways:
- Straight four-year graduation rate with de facto goal factor of $90 \%$ (current practice)
- Application of goal factor that aligns with ESSA long-term goal to cut non-graduate rate in half within 6 years (goal $=87.6 \%$ graduation rate)
- Note: goal factor used is an example, not recommendation

## $9^{\text {TH }}$ GRADE ON-TRACK INDICATOR

Response to Public Comment \#: $16,17,20,22,69,71,79,82,91,97,99,111,122,137,138,151,180$
5.1: On-Track Indicator Scores with 2016/2017 Data (Table Version)

| Letter Grade | \# Schools | \% Schools |
| :---: | :---: | :---: |
| A | 98 | $19.8 \%$ |
| B | 144 | $29.2 \%$ |
| C | 89 | $18.0 \%$ |
| D | 25 | $5.1 \%$ |
| F | 56 | $11.3 \%$ |
| N/A | 82 | $16.6 \%$ |

## 5.2: On-Track Indicator Scores with 2016/2017 Data (Chart Version)

## Considerations:

- Students enrolled $\geq 162$ days but do not finish school year with the school will count against the school because credits from $2^{\text {nd }}$ semester have not been completed
- Course grading scales differ by school/corporation
- Students earn credits prior to $9^{\text {th }}$ grade year. The rule is not explicit as to whether these credits count toward the indicator.
- Students earn credits during summer semester after $9^{\text {th }}$ grade. These credits are not captured because the Department does not collect this information.
- The Department is unable to capture credits earned out of state.
- Data set for this indicator ("C-Collection") has never been used for accountability, therefore producing unreliable results

## Proposed Accountability Rule: 9-12

$9^{\text {TH }}$ GRADE ON-TRACK INDICATOR
Response to Public Comment \#: 16, 17, 20, 22, 69, 71, 79, 82, 91, 97, 99, 111, 122, 137, 138, 151, 180
5.3: On-Track Percentages Compared to Four-Year Graduation Rate, by Cohort

How to Read this Chart:
This chart demonstrates the percentage of students on track in $9^{\text {th }}$ grade as compared to the four-year graduation rate for the same score of students. For example, for the 2017 cohort, schools with $20-29.9 \%$ of the 2017 cohort on-track in $9^{\text {th }}$ grade had a four-year graduation rate of almost $100 \%$.

## Proposed Accountability Rule: 9-12

## OVERALL A-F DISTRIBUTION

6.1: Overall 2016/2017 A-F Scores Comparison, Grades 9-12 (Table Version)

| Letter Grade | $\mathbf{1 6 / 1 7}$ Actual |  | $\mathbf{1 6 / 1 7}$ with Proposed Rule |  | $\mathbf{1 6 / 1 7}$ with ESSA Plan |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| A | 204 | $43.8 \%$ | 48 | $9.6 \%$ | 229 | $45.8 \%$ |
| B | 185 | $39.7 \%$ | 254 | $50.8 \%$ | 157 | $31.4 \%$ |
| C | 36 | $7.7 \%$ | 80 | $16.0 \%$ | 9 | $1.8 \%$ |
| D | 15 | $3.2 \%$ | 13 | $2.6 \%$ | 16 | $3.2 \%$ |
| F | 26 | $5.6 \%$ | 105 | $21.0 \%$ | 89 | $17.8 \%$ |

## Considerations:

- Data do not include ELP indicator
- If school had both 3-8 \& 9-12, only 9-12 grades were included in data (e.g., 5-12 school included in table based on score for grades 9-12)
4.2: Overall 2016/2017 A-F Scores Comparison, Grades 9-12 (Chart Version)
